DECOR VIII

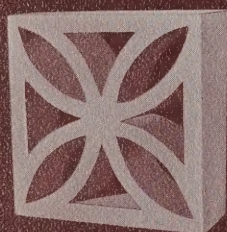

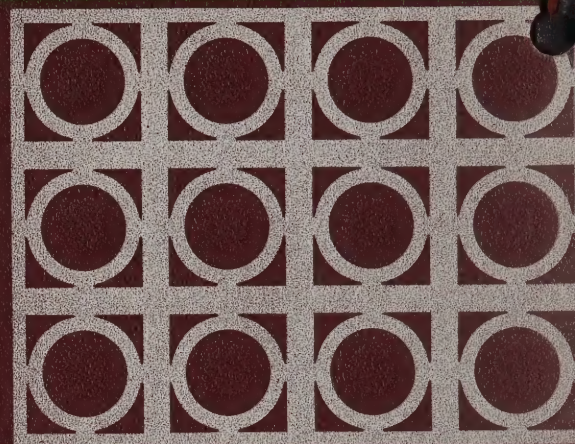

Decorative block is functional as well as beautiful. It screens while it ventilates and controls light with eye appeal. These versatile units lend themselves to countless commercial and residential uses—room dividers, window grilles, building facades, screen walls, fences, pool and patio enclosures.

FENCE PILASTER BLOCK

Also available in bullnose

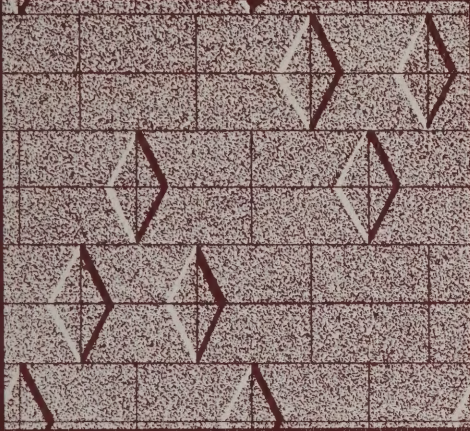

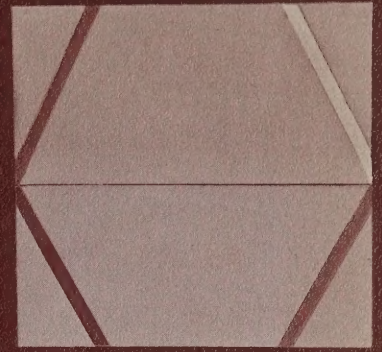

Added stability is given to decorative block fences constructed with four inch units through the use of these fence pilaster block. The use of the pilaster units also serves to give a vertical control joint in the fence thus relieving tensile stresses due to thermal and moisture volume changes.

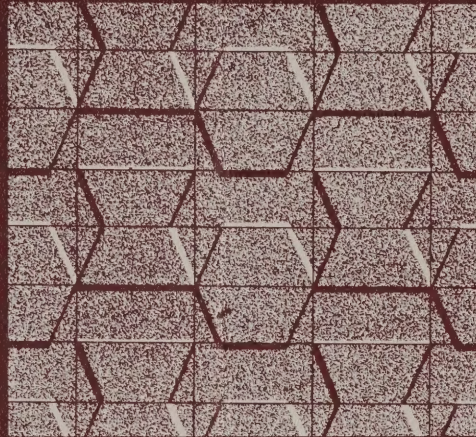

SHADOWAL BLOCK

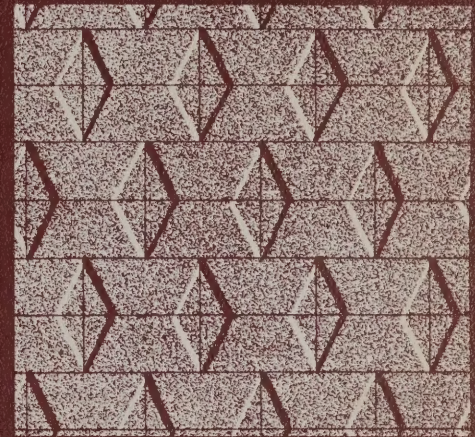

SHADOWAL BLOCK has a single fixed face, yet when stacked with its twin brothers, turns into an unusual "block with 1000 faces." Pictured here are 9 samples from shadowal block's limitless collection of feature wall assemblies. Light and shadow enunciate the lines, angles and texture. Use your own ingenuity and create a pattern or mixture of designs best suited to the nature and personality of the building. Shadowal block is available in both 4 and 8 inch units.

THE NEW JERSEY STATE CONCRETE PRODUCTS ASSOCIATION is a cooperative effort of more than twenty-six leading concrete block manufacturing plants to advance the best interests of the industry in New Jersey, of establishing and maintaining the highest standards of quality and uniformity in the manufacture of concrete masonry units; and to provide Architects, Engineers, Contractors and the public, with reliable and accurate information about their products.

All members of the Association conform to highest standards in materials and methods, quality controls, ASTM tests, laboratory techniques; in fact in every important step through to the completed concrete masonry unit approved for delivery to the job.

We hope that this brochure will convey to you the sincere purpose of our Association's members to supply the New Jersey building industry with uniformly dependable, high-quality concrete masonry units.
